

## **Love**

**Love is like a light**

**When the light is green that's love**

**But when the light is off the love is gone**

**It's hard to love someone quickly**

**Even if you know them for a month or a year**

**It takes time because if you fall in love quickly**

**It will be gone quickly**

**You can't just stop loving someone**

**It takes time to stop loving them**

**And when you stop loving someone you start to miss them**

**It hurts when you miss them and they move on quicker than you do**
